

McCuaig & Associates Engineering Ltd. is currently seeking a **Junior to Intermediate Building Science EIT/Technologist** to join our team at our Burnaby location. The ideal candidate will have one to three years of technical building science and project management experience.

Key Responsibilities:

- Provide administrative assistance to Project Engineers and Project Managers
- Perform site reviews / field investigation
- Review of drawings, specifications and other relevant technical and financial documents
- Perform quantity takeoffs / estimating
- Develop budgets and cash flows
- Research building materials and maintain and update internal templates, database and library
- Liaise with clients, contractors, suppliers, and other specialty consultants as necessary
- Attend client meetings

Skills and Qualifications:

- Registered or eligible to register as an ASCT with ASTTBC or EIT/(P.Eng.) with EGBC
- Strong technical writing skills and verbal communication skills including presentation skills
- Excellent attention to detail and strong work ethic
- Technically proficient in Bluebeam Revu, CAD, Microsoft Excel, Microsoft Word, and Microsoft Project
- Ability to prioritize and handle multiple tasks and adapt to shifting priorities
- Effective project management skills and experience
- Relevant building science and construction industry related experience
- Working knowledge of building codes, ASHRAE 90.1, NEBC, and relevant standards
- Valid Driver's License

Please note that all candidates must be willing to undergo personnel security screening (similar to criminal record check).

This is a full-time salary position; salary will be commensurate with experience. Please send resume and cover letter by email to [hiring@mccuaig.net](mailto: hiring@mccuaig.net)

Thank-you for your interest in this position. Only short-listed candidates will be contacted.
